

# ALAN HUCABY Architect

March 14, 2001

To Whom It May Concern:

I have known Daniel Bass personally since 1986, and I worked professionally with him for three years. Throughout this time I have known him to be an individual of the highest character and integrity. He was my business partner in an architectural firm in Fort Worth, Texas, where we successfully provided architectural services for a variety of clients. Daniel handled all aspects of the work including client contact, design and documentation. In addition he was the primary manager of the business. I highly recommend Daniel; he would be a valuable addition to any firm.

Sincerely,

A handwritten signature in black ink, appearing to read "Alan Hucaby", written over a vertical line.
